**About Me.**
My name is Rostyslav Kaplychnyi, I'm web-developer with a strong interest in creating Web App based on React. I'm always looking forward to learning new technologies and improving already learned ones. I began with HTML5/CSS3 and JavaScript, now I work with React/Redux.

**Skills**: JavaScript, React/Redux, BEM, Photoshop, Figma, Bootstrap.

**Projects**.
My Pet-projects.
1. https://github.com/KappRoss/petProject (React/HTML5/CSS3)
2. https://github.com/KappRoss/myExcel (JavaScript/HTML5/CSS3)
3. https://github.com/KappRoss/social-network-spa-react (React/Redux)

**Work experience.**
**1. Outsourcing projects**
*Front-end developer, June-July 2020.*
Responsibilities: develop web site on React.
**2. Freelance and Pet-projects**
*Front-end developer, July 2020 – now.*
Responsibilities: develop web site on React/Redux.

**Education**.
2016-2020 State University of Telecommunications (Kiev), Bachelor of Computer Engineering.
**Foreign language**: English - Intermediate.
**Hobby**: football, volleyball, books
